

Flexbox Defense

Wave 11 of 12 ▾

Use `justify-content` and `align-self` to move your towers into position.

```
1 .tower-group-1 {
2   display: flex;
3   justify-content: space-between;
4
5 }
6
7 .tower-1-1 {
8   align-self: center;
9
10 }
11
12 .tower-1-2 {
13
14 }
15
16 .tower-1-3 {
17   align-self: flex-end;
18
19 }
20
21 .tower-1-4 {
22   align-self: center;
23
24 }
```
